

# SOLENOID VALVES

VEHICLE WASHING | CARS | TRUCKS | RAILCARS | AIRCRAFT

Solenoid valves from our GC Valves and CFA product lines have been the first choice of leading vehicle wash manufacturers for decades because they address the demanding requirements of this industry: 24/7 unmanned operation, high humidity, aggressive line fluids, freezing temperatures. CFA pioneered compact, highly reliable, easy-to-repair solenoid valve manifolds for the self-serve segment.

## SOAPS | WAXES | CHEMICALS

## WATER | FREEZE PROTECTION

## HIGH PRESSURE | HIGH FLOW
