

SOLENOID VALVES

FOOD & BEVERAGE | COMMERCIAL KITCHEN EQUIPMENT

GC Valves solenoid valves are preferred for food processing and preparation: heating, cooling, hot oil, spraying, sanitation and more. Our 3-way and NAMUR valves provide control actuation for functional valves, manifolds and cylinders. We also provide high quality solenoid valves for commercial kitchen equipment including fryers, dishwashers, convection steamers, garbage disposals, coffee machines, frozen beverage dispensers and cooking ventilation systems.

AIR | WATER

TEMPERATURE CONTROL | HOT OIL | CRYOGENICS

BEVERAGE | FRYING | STEAM | WASHING
